PROFILE

I'm a cyber security practitioner with hands-on experience in security labs, threat analysis, and practical cybersecurity training. Currently building skills in system security, vulnerability assessment, and programming through industrial training and technical projects. Passionate about protecting digital systems and seeking opportunities to contribute to security operations and defensive security teams.

PROFESSIONAL EXPERIENCE

Freelancing
Web Developer
01/2024 – Present | Abuja, Nigeria

National Assembly
Cyber Security Intern
03/2025 – 09/2025 | Abuja, Nigeria
I served as a cyber security intern at the National Assembly with a main focus on network security and incidence response.

EDUCATION

Bachelor of Science in Cyber Security
Air force Institute of Technology
03/2023 – Present | Kaduna, Nigeria
Bachelor of Science in Cyber Security with a strong academic record (GPA: 4.87). Coursework and practical training focused on network security, digital forensics, ethical hacking, cryptography, and secure system design, complemented by hands-on labs and cybersecurity projects.

SKILLS

Frontend development	● ● ● ● ●
Software Engineer	● ● ● ● ●
Vulnerability assessment	● ● ● ● ●
Forensic analysis	● ● ● ● ●

CERTIFICATES

- ISC2 Certified in Cybersecurity

PROJECTS

Real-time Detection of Malicious Web Behaviour Via browser extension using Unsupervised Machine Learning
Z-Shield
12/2025 – 03/2025
This project aims to detect zero-day attacks with zero known signatures that are difficult to detect using the traditional signature-based systems.

LANGUAGES

English

INTERESTS

- Cybersecurity research
- Threat intelligence
- Capture-the-flag (CTF) challenges
- Programming, and exploring emerging technologies.
